FOREIGN DOCUMENTS BRANCH

Monthly Progress Report

July 1947

Section I

Implementation of Recently Proposed Plans and Policies

I b. Foreign Documents Branch

- (1) Integration of the former War Department Special Documents Section and German Military Documents Section into the Foreign Documents Branch has been successfully accomplished.
- (2) Periodicals
  - (a) Arrangements have been completed with Eurasian and Far Eastern Branches, Intelligence Division, WDGS, besides the Library of Congress, for the loan of ourrent periodicals of intelligence value from the Far East and USSR to be abstracted by the Branch.
  - (b) Periodical Abstracts published (see Appendix I, attached).

Section II

Accomplishment of Overall Mission

II b.

(1) Production

Due to shortage of clerical personnel for production of publications plus the additional quantity of necessary production involved in the incorporation of backlogs of former Special Documents Section and German Military Documents Section production of information from captured German documents will be cut about 50%.

II d.

(1) CD Requirements

It is understood that the Naval War College will have continuing requirements on Foreign Documents Branch for translation of historical material relating to Japanese Navy Operations. This is difficult to reconcile with strategic intelligence requirements. To date there have been twenty-five (25) documents, from which extract translations have been made for the NWC.

**SECRET**

Approved For Release 2002/06/17 : CIA-RDP83-00500R000200010012-9

**SECRET**

The most recent of these amounted to two hundred (200) manuscript pages of translation. Because of target dates assigned, this material has to be given an "A" priority in FDB. (See discussion of production problem paragraph (1) above) and list of projects in process, (Appendix I, attached). This material is not of intelligence value (witness evaluations by ORE) and its exploitation is not being done for one of the IAB agencies. It is not of interest to the IAB agencies, and is costing CIG thousands of dollars. Further, if this work is of high priority to the Navy, may it not be suggested that Japanese translators presently employed in the Office of the Chief of Naval Operations be assigned to this work. Proper assignment of Japanese translators in the form of Naval Reserve Officers returning to ONI for two weeks active duty should also lead to further productivity. Accordingly it is recommended that if further work of this nature is to be accepted by CIG, an agreement be drawn up to the effect that the Navy assign two of its Japanese language officers on active duty to CIG.

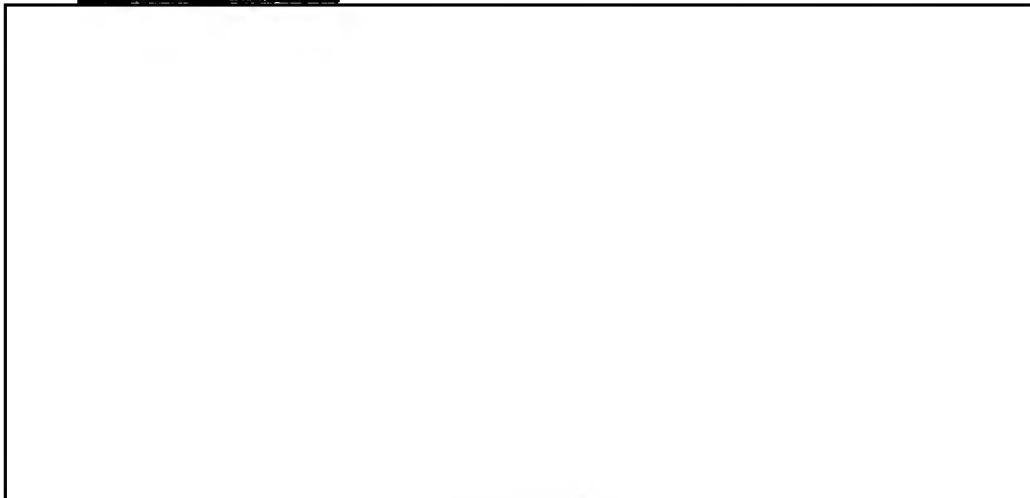

II e. Projects assigned to Foreign Documents Branch, including priorities (See Appendix I).

II g. (1) Personnel Situation

The shortage of both linguist and clerical personnel remains a serious problem. Of the total personnel employed by the former Special Documents Section and German Military Document Section, only 40% transferred to Foreign Documents Branch. As the newly integrated War Department Sections become more productive, the problem of shortage of clerical personnel in the Editorial Section becomes more acute. Present strength of the branch is only 55% of ceiling.

(2) Personnel Report

25X1A

**SECRET**

25X1A

**SECRET**

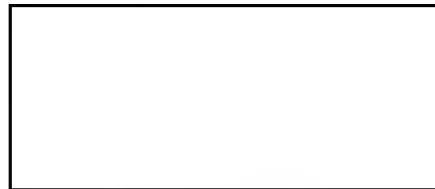

difficult security problem as it is impossible to exclude from the building all persons other than Foreign Documents Branch personnel. Doors to the stair wells cannot be locked during working hours because of Fire Regulations.

Although security measures taken by Foreign Documents Branch were approved by Chief, Security Division, P & A, the situation is not a desirable one. A recommended solution is that Foreign Documents Branch occupy the entire building at  or move to a building where it will not be necessary to share it with another agency.

25X1A

III b. Projects contemplated within the near future:

- (1) Exploitation of USSR newspapers in conjunction with Joint Intelligence Bureau.
- (2) Exploitation of Chinese Communist newspapers, sole copies of which exist in Foreign Documents Branch.

25X1A

J. J. Baghall  
Acting Chief  
Foreign Documents Branch

Appendix I

(II e. List of projects assigned to Foreign Documents Branch)

1. PUBLICATIONS PRODUCED

a. Periodical Abstracts (Far East) published:  
No 5 "Proceedings of the Japanese Imperial  
Academy."

1

b. Action was completed on 19 requirements from  
OCD as follows:

(1) Translations published and reports issued:

CD No 967-L, M "First Battle of Savo Island"  
(OOW Nos 63, 74)

CD No 690, "Regulations and Roster of Members  
the Academy of Sciences of the USSR" (Satis-  
fied by loan of microfilm copy of substitute  
document).

CD No 478-F, G, H, I, J, "International Treaty  
Texts". (OOW Nos 67, 70, 71, 75, 79)

CD No 511, "Significant Items from Korean  
Newspapers". (OOW Nos 66, 72)

CD No 699, Rerun of Translation 80, "Epidemics  
in Far Eastern USSR".

CD No 1104, "Research in Field of Isotopic  
Chemistry". (Translation 83)

CD No 1261, "Article on Paracel Island",  
(OOW 69)

CD No 470.5, "Electronics Research Personnel,  
USSR", (OOW 78).

CD No 268.4-C, "Seismic Ranging", (OOW 76).

CD No. 1421.1, "Gas Turbine and Axial Com-  
pressors", (OOW 73).

CD No.1478, "Plague Epidemics", (OOW 77).

**SECRET**

**SECRET**

(2) Summaries published

3

CD No 1310, Summary translations of Japanese documents on industry, geography and economics in China, (OOV 64).

CD No 803, Summary No 2, "Major Rivers in Eastern USSR".

CD No 1268, Summary No 3, "Agriculture and Livestock in Sinkiang".

(3) Publications requested from Foreign Documents Branch files

5

CD No 1392.1, "NKVD Operational Methods", (Translation 53).

CD No 1431.1, "Fogs Along the Northern Sea Route", (Translation 39).

CD No 1539.1, "Strategic Map Study, Kamchatka", (Translation 67).

CD No 1574.1, "Mineral Resources of Sinkiang", (Summary No 1).

CD No 1598.1, "Rear Preparation of Red Army in Eastern USSR", (Translation 81).

o. Translations published (other than CD requirements)

2

"Rear Preparation of the Red Army in Eastern USSR", (Translation 81).

"Articles on Theoretical and Applied Physics and Geology", (Translation 82).

d. Industrial Plant File Cards

Number distributed	35,115
Number of separate cards	1,236
